

FRANK CANTHORN HAS NO REGRETS

His Act in Killing Mrs. Ada Jones Was Cruel and Atrocious.

HIS ONLY FEAR IS LYNCHING

Does Not Want a Lawyer to Defend Him, and Is Ready to Take His Punishment.

FRANK CANTHORN.

[Special to The Times-Dispatch.]

CHICAGO, Jan. 22.—The preliminary trial of Frank Canthorn, for the murder of Mrs. Ada Jones, the beautiful young wife of Sidney Jones, of Cambria, was held in the courtroom here this afternoon before Justice W. C. Flagg, who sent the accused on to the grand jury for indictment, and committed him to jail without bail, to await the February term of the court.

The evidence showed one of the most deliberate and carefully planned, as well as the most cruel and atrocious murders, ever committed in this section, and all who heard the evidence were puzzled to think that one in human form could commit such a deed. Canthorn went upon the stand voluntarily and told how he had been awaiting his opportunity to commit the murder for about a year, and had decided to kill her on the 11th of the month, which was his twenty-first birthday, but the opportunity was not afforded.

He said she was the only person he ever loved, and he would rather tell her than to see her the wife of another, that he realized now and hereafter that he was doing wrong, but he had no regrets, and would do the same thing again. He said he expected to pay the penalty with his life, and wanted his trial as soon as possible, so it would all be over.

Doesn't Want Counsel.

The Commonwealth's attorney asked him if he did not want counsel to defend him, and he replied that he did not, as attorneys could do him no good, and he had nothing to hope for now.

Several ministers have called on him at the jail, and while he expressed appreciation for their interest in him, yet he seemed little concerned about his condition.

Great indignation and threats are being expressed by Mrs. Jones's relatives, she being a daughter of Joseph Blankenship, a respectable farmer near here, and the sheriff is taking precaution to protect the prisoner, who has expressed but one fear, and that is that he would be lynched.

The funeral of the dead woman will take place to-morrow, and she will be buried at the Blankenship burial place, about one mile east of town.

DOCTORS IN SESSION.

The South Piedmont Medical Society

Picked Support to St. Board.

[Special to The Times-Dispatch.]

SOUTH DORSET, Va., January 22.—

The South Piedmont Medical Society convened in the Odd-Fellows' Hall at 3:30 o'clock yesterday afternoon, with a number of prominent physicians present. The reading and discussion of papers were in the following order: "Treatment of Prostatic Hypertrophy," by Dr. J. Shelton Horsely, invited guest of Richmond, Va.; "Incipient Pulmonary Tuberculosis—Its Diagnosis and Treatment," by Dr. J. Garret Nelson, invited guest of Richmond (freely discussed); "Saline Irrigation in Diffuse Suppurative Peritonitis, With Postural Aid Versus Postural Aid Alone," by Dr. W. L. Robinson, of Danville.

The neurological committee reported.

Cures Woman's Weaknesses.

We refer to that boon to weak, nervous, suffering women known as Dr. Pierce's Favorite Prescription.

Dr. John F. Pierce, of the Editorial Staff of THE ECLECTIC MEDICAL REVIEW, says of Unicorn root (Helonias Dilol) which is one of the chief ingredients of the "Favorite Prescription":

"A remedy which invariably acts as a uterine invigorator, and makes for normal activity of the entire reproductive system. He continues: 'In Helonias we have a medicinal which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent.' Dr. F. further states: 'The following are among the leading indications for Helonias (Unicorn root). Pain or aching in the back, with leucorrhoea; stony or difficult condition of the reproductive organs of women, mental depression and irritability, associated with chronic diseases of the reproductive system; a feeling of coldness or heat in the region of the kidneys; menorrhagia (flooding), due to a weakened condition of the reproductive system; amenorrhoea (suppressed or absent monthly periods), arising from or accompanying an abnormal condition of the digestive organs and a general (thin blood) habit; dragging sensations in the extreme lower part of the abdomen."

If more or less of the above symptoms are present, no woman can afford to neglect the use of Dr. Pierce's Favorite Prescription, as it is the only remedy which cures the weaknesses of which Unicorn root, or Helonias, and the medicinal properties of which it most faithfully represents.

Of Golden Seal, another prominent ingredient of "Favorite Prescription," Prof. Finley Livingston, M. D., of Bennett Medical College, Chicago, says: "It is an important remedy in disorders of the womb. In all atrophic conditions, and general enfeeblement, it is useful."

Prof. John M. Golden Seal, M. D., late of Cincinnati, says of Golden Seal root: "In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion as it is universally regarded as the tonic useful in all debilitated states."

Prof. R. Bartholow, M. D., of Jefferson Medical College, says of Golden Seal: "Valuable in uterine hemorrhage, menorrhagia (flooding) and congestive dysmenorrhoea (painful menstruation)."

Dr. Pierce's Favorite Prescription faithfully represents all the above named ingredients and cures the diseases for which they are recommended.

TO MAKE WOOD PULP.

International Paper Company to Oper-

ate Along the James.

[Special to The Times-Dispatch.]

NORFOLK, Va., January 22.—The In-

ternational Paper Company, through a

Southern transportation company, which

it practically owns, has bought a

fleet of four tug-boats, for the purpose

of gathering wood for making pulp.

It is declared that the gum

timber of this section and the Daniel

Swamp is admirable for the making

of the highest quality of wood pulp.

The company has purchased the fol-

lowing tug-boats: Hampton and Mul-

low, from Furman Bros., of Peters-

burg; Anita, from Captain S. J. Lind-

say, of Norfolk; and Marion, from

Cameron from Baltimore parties. Cap-

tain Isaac Tolson has been put in charge

of the fleet, and the operations of the

company will be extensive, in moving

barges and ships.

It is expected that the company will

shortly establish a wood pulp mill

facturing plant in Norfolk or vicinity

for the reduction of the gum and other

timbers to pulp and its shipment in this

shape.
